AN INTRODUCTION TO FOLDED BLOCKS PROJECTS: THREE-BLOCK SAMPLER

This great fat-quarter project has been written as a tutorial for making folded blocks. Although Indiana Puzzle, Union Squares, and Dutch City are not all beginner level blocks, you'll use all twelve folding techniques to make them. If you decide to start with a different project, you can refer to this chapter for tips and tricks on cutting and construction.

Please be sure to refer to page 15 for additional tips and pages 90–92 for the folding methods in detail, and our Web site for more pictures and video demonstrations at www.3dfoldedblocks.com.

**THREE-BLOCK SAMPLER,
9" x 22½", MADE BY THE
AUTHORS. BLOCKS FROM
TOP TO BOTTOM: UNION SQUARES,
INDIANA PUZZLE, DUTCH CITY**

FLANDERS FIELDS

FLANDERS FIELDS, 28½" x 24",
MADE BY THE AUTHORS

Each Remembrance Day, school children all over Canada recite Lieutenant Colonel John McCrae's poem "In Flanders Fields." Very few of us haven't been touched by war in some way, ourselves included, so this quilt was designed in honor and in memory of those who defend our freedom and the freedom of others.

SALUTE TO THE NEIGHBORS

This pennant-shaped wallhanging was designed using the colors of the United States, our neighbor to the south, but they are also the colors of the flag of our birthplace, The Netherlands. The blocks were chosen because of their American names. They are all six- and seven-step blocks and are among the more difficult ones in this book. However, construction of the pennant is simple.

**SALUTE TO THE NEIGHBORS, 14" x 24",
MADE BY THE AUTHORS**

STASHBUSTER

**STASHBUSTER, 26" x 30½",
MADE BY THE AUTHORS**

The 30 blocks in this scrappy sampler range from simple to difficult; however, the construction of the quilt is simple and requires no quilting. The color scheme is based on color temperature (that is, red hot and cool blue) more than on value (light, medium, dark).
