Kisses and Hugs (to Susie!)

71½" x 81"

Step 9

Sew the A and B blocks into rows. Alternate the starting blocks. Press the seams toward the B blocks. Sew 2 rows together to make a row pair. Create 7 row pairs.

Step 9

Step 10

Sew the 7 row pairs together to create a quilt top, following the photograph on page 30. Press well.

Step 10

Step 11

This quilt has 3 borders—inner, second, and outer, with a flange between the second and outer borders.

Add the inner border by first squaring the top. Then measure through the quilt top center vertically and horizontally. Write these measurements down and

Hint

A good iron is one of your most important sewing tools!

Simply Awesome Spaghetti Squash

- | | |
|---------------------------|--|
| 1 medium spaghetti squash | 2 ribs celery, chopped |
| 1–2 T olive oil | $\frac{3}{4}$ cup zesty Italian dressing |
| 2 medium onions, chopped | $\frac{1}{2}$ cup shredded Parmesan cheese |
| 2–3 cloves garlic, minced | |

Prick a clean, whole spaghetti squash with a sharp knife in several places. Place on a paper towel and microwave until done (10–15 minutes depending on squash size and microwave). Turn the squash over occasionally. Squash will begin to soften in the middle when done. Allow to sit and continue cooking while preparing remaining ingredients.

In a skillet over high heat, sauté onions, celery, and garlic in olive oil until they just begin to turn golden. Remove from heat. Cut squash in half lengthwise and scoop out seeds. Scrape the pulp into a large bowl, separating into spaghetti strands. Mix in sautéed veggies, tossing well. Pour into a greased casserole dish. Top with cheese and bake at 350 degrees, uncovered, about 10 minutes, or until cheese begins to brown.

Hint

When unsewing a seam, if you can find the bobbin side of the seam and get a thread-tail started, often you can gently tug and draw out quite a bit of thread before it breaks. Do this over and over and when the bobbin thread is all pulled out, just lift off the top thread.

Duck Feet

42" x 42"

Hint

When you are into a large project requiring multiple bobbins, store the extras on your machine's second spool pin. They are ready to grab-and-go in a jiffy!
